

## **LinkedIn Profile Description**

What happens to your old product when you don't need it anymore? Buying a new product is not a problem. Selling your old one is.

Fairown Buyback removes the hassle of resale. It's a combined system of credit and buyback. We buy the product, fix it up, and find a good use for it. This gives customers more choice and makes it easy to get rid of the products they no longer need.

Fairown works with leading brands that are shifting from a linear to a circular economy: STIHL, Komplett, Apple Premium Resellers, and more.
